

VA 806 FB Interleaver

CARRIAGE FOR 600 MM RESTRAINT LENGTH WITH CONVEYOR BELT AND INTERLEAVER

A Bluetooth interface facilitates fast, competent programming, taken care of by the GRAEF parent plant.

VA 806 FB Interleaver - with conveyor belt and interleaver

The interleaver facilitates automatic insertion of leaves and foils between the discharged sliced product. The unit has the stacking function and automatic stacking correction.

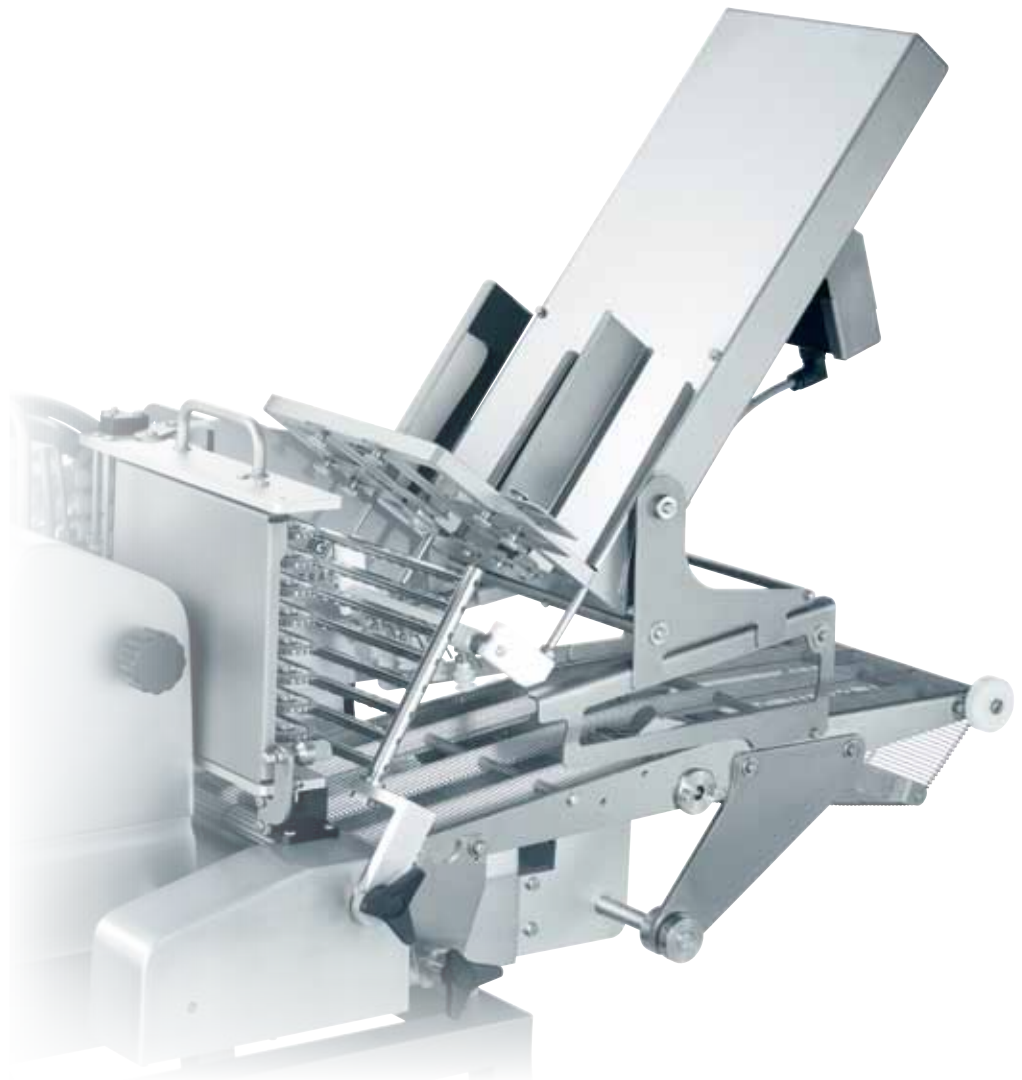

BENEFITS

CARRIAGE

- Carriage can be folded for cleaning
- Automatic, smooth running carriage
- Self regulating carriage advance number 30 - 55 strokes/min.
- Motorised slicing product feed
- Slicing product advance in a mount 600 mm
- Simple and rapid slicing product fixation through patented food holder "Fork" and highslicing product retaining bar

ACCESSORIES

- Separator appliance to separate from 2 pack foils or trays
- Three-segment filter (pressure control device with manometer, moisture separator, oil and dirt filter)

TECHNICAL DATA

Product no.	INTERLEAVER
Dimensions (L x W x H)	540 x 270 x 550 mm
Voltage / Frequency	230 V / 50 Hz
Special voltage	Available on request (e.g. 110 V / 60 Hz)
Placement speed, trays, paper, foils	max: 60/rpm
Operating pressure	4 - 5 bar
Dimensions, trays, paper, foils	max. 170 x 250 mm
Weight paper, foils	min. 65 g/m ²
Warranty	1 year
